

CertKit: Certified Associate in Project Management (CAPM)® Exam - PMBOK® Guide - Sixth Edition-aligned

Regardless of your career stage, the Certified Associate in Project Management (CAPM)® is an asset that will distinguish you in the job market and enhance your credibility and effectiveness working on — or with — project teams.

If you're responsible for managing projects, understanding the project basics is essential. Project management is affected at every stage by the organization, the social environment, the project stakeholders, and many other aspects of the context in which the project is carried out. The CAPM® is an asset that will enhance your credibility and effectiveness in project management, as CAPM training helps you understand what you need to know before planning begins.

This CertKit covers the topics of the exam.

Target Audience

Existing project managers pursuing certification in recognition of their skills and experience; individuals training to become accredited project managers.
